Leadership of Change® Keynotes

#1

Three Key Responsibilities of Change Leaders

Effective and proactive change leadership is essential for successful organisational change.

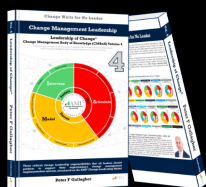

"Change leaders effectively and proactively, articulate the vision, model the new way, and intervene to ensure sustainable change"

Peter talks about the three responsibilities of famous change leaders:

Articulate the change vision: How does John F. Kennedy articulate a vision?

Model the new way: How does Mohandas K. Gandhi model the new way?

Intervene to ensure sustainable change: How does Malala Yousafzai intervene to ensure change?

Ten Organisational Change Lessons Learned

There is a big difference in leading normal-day-today operations and leading organisational change. Successful change implementation is one of the biggest problems that modern organisations encounter.

"Organisations with superior leadership of change capability stay ahead in the marketplace"

Peter shares practical insights into the ten key challenges which organisations and leaders face while implementing change. These include organisational change capacity, the importance of sponsorship, change resistance, employee adoption, etc.

Change Waits for No Leader

Aligning Leadership Teams to Lead Change

Change capability starts with the leadership team. The leadership team needs to understand previous change history and the barriers to success so they align strategically as a high performing team, and develop the skills and knowledge to successfully deliver future organisational change.

"The best leadership teams have purpose, they are aligned on their strategic objectives, they are a high performing team and have change leadership skills"

Peter speaks about the role of the sponsor and the change leadership alignment process he takes leadership teams through before they start their change journey.

Change Leadership Capability - One Day Executive Workshop

Customer Value Proposition: We develop your Leadership of Change® knowledge and skills through experiential learning, using a change leadership business simulation and case study in an interactive workshop.

Change Leadership Capability: We use an interactive and dynamic simulation for organisational leaders to learn both change leadership skills and knowledge using game characteristics and experiential learning.

Outcome: The participants will be equipped with change leadership knowledge, skills, and self-awareness to successfully implement change.

Change Management Body of Knowledge (CMBok)

Peter has created the Leadership of Change® Change Management Body of Knowledge (CMBok). This CMBok includes twelve books on change management: eight textbooks and five workshop manuals. The first three books create a foundation and change approaches. Change Management Fables, the first book, outlined the key challenges experienced in his working career and formed the pocket guide and handbook. With the structure in place, he focused on four important implementation concepts: change leadership, employee adoption, behaviour, and sponsorship.

Change Leadership Alignment

Preparing Leadership Teams to Lead Organisational Change

CEO Problem: It is continually reported that 70% of change and transformation programmes fail, meaning strategy is not executed, performance is not improved, and the competition moves ahead.

Solution: Prepare your organisation's leadership team, develop their leadership of change skills and knowledge to successfully implement change, maximise both ROI employee adoption, and sustain the change.

Who: Peter works directly with the leadership team to align, prepare, and coach them to successfully deliver their organisation's change.
